Pricing for 3 or more weeks:

Program I: \$350 per week, Program II: \$375 per week

Register before March 30 for \$50 off the total price.

*Camp will have a different theme each week!*

**Chat & Play with Friends:** The goal of this group is to expand receptive and expressive language skills. Special emphasis is placed on improving pragmatic aspects of language including socialization, making friends, initiating conversations, topic maintenance, and deciphering nonverbal aspects of language. Additional emphasis is placed on expanding and improving auditory processing, following directions, building vocabulary, and linguistic concept development.

**Sing Your Heart Out:** This group focuses on music appreciation, using musical activities to enhance social and language skills. Music therapy is a powerful, non-threatening tool to build upon a child's innate strengths, while gently guiding the child to an enjoyable and musically productive experience. It enhances a child's life by providing a unique opportunity to embark upon a stimulating and creative musical journey. Throughout that journey, the child learns new social tools, improves language use and function and explores more rewarding interpersonal relationships. In addition, musical instruments are introduced and taught through a hierarchical system to create a fun musical experience.

**From Jumping to Drawing:** The focus of this group is to improve sensory processing and motor coordination skills through a variety of movement-based fine and gross motor activities. Special emphasis is placed on improving problem-solving skills and motor skills such as balance, eye-hand coordination, muscle strength, grasp-release and in-hand manipulation. Handwriting, cutting, and drawing skills are also focused on in a fun, non-threatening manner.

**Fun with Food:** This group focuses on educating children about the importance of eating a well-balanced diet. Food types and categories are discussed. At the same time, the children are exposed to a wide variety of foods in order to assist with food repertoire expansion. In a fun, social and non-threatening manner, children are encouraged to expand their food horizons as they socialize with friends.

**Loving Literacy:** (only offered in Program II for ages 4 and older). This group is lead by a reading specialist who is dually certified in both literacy and speech-language pathology. Language-based reading therapy implements multi-sensory teaching methods to help children improve their literacy skills. Instruction promotes improved phonics, reading, writing, vocabulary, comprehension, and speaking skills. Language-based reading therapy can also boost self-esteem and relieve academic frustrations.

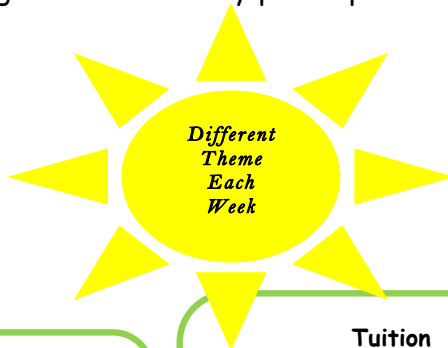

# Camp PAL 2012

Same great camp at a new facility
