# Dinner with Friends

8 week program beginning on January 22nd  
Tuesdays 5:30 - 6:30

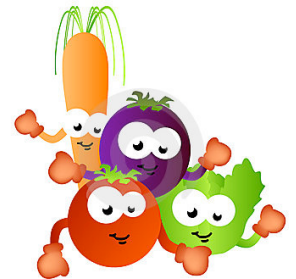

*Dinner with Friends* is a therapeutic feeding group designed for children who are picky eaters and problem feeders. The group is designed to give children an opportunity to eat together in a social environment and to expand feeding repertoire. A feeding therapist will be present to facilitate eating and encourage children to achieve the next level of interaction with new foods. The feeding groups follow a 7 week plan that is individualized for the needs of the participants.

## Feeding Group Goals include:

- Helping children to feel more comfortable around food
- Helping children increase their food repertoire
- Giving children opportunities to interact with food in a positive way
- Providing children with positive reinforcement for each level of interaction with food

Children will enjoy social interaction at a family style meal where they will have the opportunity to cook, try new foods, eat and play. They will also share their favorite foods with friends.

For more information contact Cynthia Marrapodi at Creative Speech Solutions, LLC. Registration forms are available in the office.
